\* Clinical trials in April 2019 JCO article

*"We found the Dental Pain Eraser to be effective for immediate pain relief as well as delayed pain, which occurs 12-24 hours after adjustments."*

*This changes the status quo of orthodontic treatment and pain."*

Dr. Moonyoung Lee

St. Bernabes, Orthodontic Program Director

"Highly Recommended by Clinicians for Their Patients" by Clinicians Report®, the Top Independent Dental Tech Evaluator

**"My daughter is vocal when it comes to pain. After using the Dental Pain Eraser, she wiggled her loose tooth and it didn't hurt anymore. The Dental Pain Eraser did the trick! I love using it as a mom and orthodontist."**

**Laura Bonner, DDS, MS**  
Diplomate, American Board of Orthodontics

# DELIVERY OF

Teeth, cheeks, lips, tongue and gums contain nerve endings that are highly sensitive for pain, temperature, air and pressure. In fact, a large part of our brain is used for sensory perception in our mouth.

# IMMEDIATE DENTAL

# PAIN RELIEF

**Advanced Pulsewave™ technology** sends gentle electric pulses to calm the nerves in the mouth and provide long-lasting pain relief. Can also be used for **pain prevention**.

# THE IDEAL PAIN

## Erase Dental Pain

Million of patients avoid the dentist because they are afraid. With the Dental Pain Eraser, you never have to be anxious about dental care again!

Apply on root surface and on tooth surface for up to 45 seconds per tooth on average.

# MANAGEMENT TOOL

## Erase Canker Sore Pain

1 in 5 people experience canker sores routinely. Immediate abrasion relief from canker sores, aligners, braces, or dentures!

Apply around the canker sore or abrasion for 20 seconds, not touching the inflamed area.

# FOR DENTISTRY

## Erase Ortho Pain

Proven immediate pain relief during orthodontic treatment. Pain will never be an obstacle to a beautiful straight smile again!

Apply up and down the root surface for 10 seconds per tooth with an average of 2 minutes for the whole mouth.
